RE: Non Filing Spouse Business Income – [REDACTED]

According to the schedules and statements you provided us, your non-filing spouse is involved in the operation of a business. Additional information is required to identify your connection to the business, if any, and whether it could have any possible impact on your Chapter 13 Bankruptcy proceedings. We are attempting to determine the extent of your involvement in the business, including, but not limited to interest in profits and/or assets of the business, responsibility to file business reports and/or pay employer or business taxes, and liabilities for business debts. It is also important to have the documentation necessary to determine if your non-filing spouse's business will be able to earn the net monthly business income noted on Schedule I and J.

A business questionnaire and the checklist have been sent out to you attached to this letter and are due no later than [REDACTED]. We ask for your assistance by filling out this information, which will help us determine whether this case is a potential business case. Please work with your non-filing spouse and provide us with all required reports and documentation in addition to the completed questionnaire. The sample of business reports/forms is posted on our website at www.rodgersch13.com under "Business cases/Reporting" section.

You can fax your completed questionnaire and documents to 616-454-9798, or mail to 3350 Grand Ridge Dr. NE, Ste 200, Grand Rapids, MI 49525. If you have any questions, feel free to contact Matt Parker at (616) 454-9638 ext. 125

Best Regards,

Matt Parker
Business Case Analyst
